Projects

HTML,CSS,JavaScript based projects

OpenSea Clone [Live](#), Versant test [Live](#)

Both OpenSea and Versant-test websites are created using pure HTML CSS JavaScript. OpenSea clone is a **clone** of the real OpenSea home page and Versant test is an online platform where one can check his/her **English pronunciation**.

Reactjs

Text-transformer [Live](#), Portfolio [Live](#).

Both text-transformer and portfolio websites are developed in Reactjs. Text-transformer is an application which help a user to perform multiple task on text like Convert **UpperCase** text to **LowerCase** (or vice versa),remove spaces from the text, Enable and disable themes etc.

I summarized all my journey till now in my Portfolio website. It contains all details regarding **projects,skills,education,contacts** details etc.

Team-based software development project(internship):

E-commerce website wooden candy [Live](#)

During the period of my internship I got an opportunity to work on different projects like CRM,**Exam portals** website and **e-commerce website** like wooden candy, where I worked as a backend developer.

Bachelor of technology in Computer science & engineering.
(7th semester): 8.33CGPA

Government Higher Secondary school Waraseoni

JUN 2018 - JUN 2019

Maths (Grade): 88%

Government High School Waraseoni

JUN 2016 - JUN 2017

Grade : 85%

SKILLS

HTML5, CSS3,
javaScript, Reactjs,
jQuery, Ajax
php,sql,Mysql

Familiar with:

C++,python

IDE :Visual Code

Tools :Git/Github

Achievements

State level in Science fair

I developed a modal to reuse plastic, iron, and glass using a single machine, according to the temperature.

This project saves a lot of energy, time.
